Mission Statement and Philosophy

Edison United Soccer Association (“EUSA”) is dedicated to providing high quality instruction to develop players with outstanding personal character into successful soccer players. We work hard to introduce and instill education, discipline and passion in each of our players. Whether a player is engaged in EUSA for fun, exercise, or planning to play at the high school, college, professional, and national team level, we are here to foster the overall development of our players.

EUSA provides qualified and dedicated Training Coaches & EUSA Staff Coaches to develop self-esteem in their players in a positive and competitive environment that makes the game fun. Players and their parents are expected to be personally responsible for the player’s growth as an individual whose personal character is beyond reproach, strives to achieve success in the classroom and in the community, behavior reflects positively on EUSA always, and their growth as a soccer player, individually and within the framework of their Team.

EUSA provides many levels of organized soccer activities. Whether a player is just beginning to learn to play or serious about developing advanced skills, it is important to recognize that continuous training to maintain and improve their technique, skills, strength and overall fitness is a commitment necessary to play at the highest levels of competition.

Players and their parents make a commitment to EUSA for a -soccer annual season that covers pre-season Fall training, Fall Season, Winter training, Pre-Season Spring season, Spring Season, and some teams may also participate in a Summer Select Season. Each Spring, players will be evaluated to determine whether a player will continue with their Team the following Fall.
